MENTAL HEALTH

## SATURDAY 16<sub>th</sub> January 2016 Assemble 11 am, norwich city hall steps

Never before has there been such an outcry about vicious and prolonged cuts to mental health services.

Never before have so many people needed help with mental health.

In Norfolk and Suffolk, we have been hit especially badly with our local NHS trust, NSFT, rated inadequate by the

CQC, still in special measures and facing £36 million more cuts over the next four years.

We can show our local Clinical Commissioning Groups, councils, NHS England, Department of Health and Government that we will no longer tolerate blatant discrimination and still more tragedies.
